

ARSENIC IN
THEIR MUSHA Whole Family Is
Poisoned.Their Lives Saved by a Ver-
itable Miracle.The Case Presents a Strange Sim-
ilarity to the Below Trag-
edy at Dixon.

SACRAMENTO, November 16.—Mrs. Dorothy E. Schubert and four daughters, of 408 Eleventh street, have narrowly escaped serious consequences from arsenical poisoning.

They ate breakfast together yesterday morning, partaking among other things, of a certain preparation of mush.

A few hours afterwards Mrs. Schubert was taken violently sick. Her daughter, Miss Calia Schubert, a stenographer in a local wholesale house, soon after appeared at the home, sudden illness having come upon her. Her three sisters soon afterwards followed.

Doctors were summoned and they pronounced the symptoms those of poisoning.

The contents of the stomach of one of the sufferers were given to a chemist for analysis. His conclusion was that arsenic had been swallowed. Afterward the mush eaten by the family was given over to analysis and it was declared that this has been found to contain arsenic.

Mrs. Schubert, when visited by a reporter this afternoon, said that she was unwilling to give out information until the completion of analysis of the cereal preparation partaken of yesterday morning. She said, however, that there was no possibility whatever that the poison had been put in the mush.

The chemist had told the doctor, she said, that the poison was present in quantities to do harm.

Mrs. Schubert and her daughters have recovered almost entirely from the effects of the poison and they regard their escape as miraculously fortunate.

The original package of pastebread, which the family ate, is now in the possession of a chemist. A chemist said this afternoon that the meal remaining in the box contained enough arsenic to kill a very large number of people.

The chemist was also given the contents from the mush eaten by one of the victims to make an analysis, and in it he also discovered a great quantity of arsenic.

When placed under a powerful magnifying glass the poisonous crystals were plainly revealed. It was a miracle, he said, that any one who had partaken of the mush had escaped death.

GOOD ROADS NEEDED.

A State Official Returns From a
Tour of Inspection in Europe.

SACRAMENTO, November 16.—Marsden Manson of the department of highways returned from an extended tour of continental Europe last Tuesday, whither he had gone to attend the international convention of geologists which, recently met at St. Petersburg, Russia.

Mr. Manson made a thorough study of the latest improved methods in road-building during the four months of his stay in Europe and the result of his diligent study and careful observation in this direction will soon be in possession of his department of the state government in the shape of a condensed report dealing with the important subject of road construction.

Mr. Manson has no end of data bearing upon the subject and in addition to volumes of text he has nearly 300 photographs of the highways of Europe showing the results of the application of scientific principles to this branch of work.

France, Germany, Russia, Italy, Switzerland and England were visited and Mr. Manson made as full notes of the roads of these countries as the limited time at his disposal would permit.

GLEASON CONVICTED.

Perjured Evidence Did Not Save
the Slayer of D. M. Cotton.

BAKERSFIELD, November 16.—After being out all night the jury in the case of T. M. Gleason, charged with killing D. M. Cotton on July 9th, brought in a verdict of murder in the first degree, with imprisonment for life.

Cotton was a ranch hand and was spending a few days in town, and during the course of his journeying fell in with Gleason, who tried to rob Cotton. Cotton met Gleason later in the day and said something about doing Gleason up, when the latter drew a revolver and shot Cotton.

At the coroner's inquest George Lyman testified that Cotton was in the act of striking Gleason with a knife when the shooting broke place. Later Lyman was convicted of perjury in the case and is now serving a term in San Quentin.

Thanksgiving Proclamation.

SACRAMENTO, November 16.—Governor Budd today issued the following Thanksgiving proclamation: "Thursday, November 25, 1897, is hereby appointed a day of public thanksgiving. On said day let the people of this state give thanks to the Almighty God for the manifold blessings enjoyed by us during the past year, and in recognition of said blessings, let us mingle with our thanks such alms as our hearts may dictate and our purses allow."

RAILROAD NOTES.

The Atchison Road Makes Another
Move in Southern California.

CHICAGO, November 16.—The western lines have struck a snag in the settlement of their immigrant traffic troubles. The Union Pacific has refused to go into the latest deal with the steamship companies, by virtue of which the emigrant clearing house of the western roads is to have the routing of all of the immigrant business.

The directors of the Atchison road have referred to the executive committee the advisability of buying up the stock held by the minority holders of the preferred stock of the Southern California road. The Atchison road now owns the majority of the stock, but there are about 30,000 shares in the hands of individuals. It is the idea to exchange this stock for preferred stock of the Atchison, but it is not known whether the stock holders will be willing to sell on this basis.

Infected Seed in the Mails.

SACRAMENTO, November 16.—At a joint meeting of the several county boards of horticulture held here this afternoon a permanent state organization was effected by the election of Hiram Hamilton of Orange as president and Harry R. Stabler of Yuba secretary. It was decided to draft a resolution to be presented to the state fruit growers' convention now in session here, asking the postmaster general to exclude from transmission through the mail all kinds of fruit, seeds and slips, the idea being to lessen the danger from the distribution through this agency of infected cherubs and seeds.

A Memorial for Henry George.

NEW YORK, November 16.—It has been determined to appeal to the public at large for subscriptions to a memorial for Henry George, on the broadest grounds of respect for the memory of a man who devoted himself unflinchingly to the public good entirely irrespective of difference of opinion as to his economic or political views, in the hope that all the various projects that have sprung up in different parts of the country having this purpose in view can be brought into harmony.

California Fruit Sales.

CHICAGO, November 16.—The Earl Fruit Company sold today:

Grapes—Emperors (single crates), \$1.05 to \$1.13; red Emperors, \$1.14 to \$1.25; red Emperors, clusters, \$1.25 to \$1.30.

The National Exchequer.

WASHINGTON, November 16.—Today's statement of the condition of the treasury shows: Available cash balance, \$233,269,211; gold reserve, \$165,859,248.

NATURAL RESULT

Germany Alarmed at the
Loss of Exports.Blames the Dingley Bill for the
Shrinkage of Trade With
Uncle Sam.

WASHINGTON, November 16.—Consul

Monaghan at Olenitz, in a report to the state department on Germany's exports to the United States, says: "Germany is alarmed. Exports to the United States are dropping off. Nothing so alarming has appeared in twenty years. America was always the best customer in many lines of manufactures."

"In the September quarter of 1896 seventeen consular districts sent to the United States goods amounting to \$14,481,414. In the same quarter 1897 the same districts sent \$7,189,112. The average loss all over the empire is nearly 50 per cent. In many cases this indicates much more than mere money losses to our revenues."

"It indicates a diminution in exports from this empire due to the Dingley bill. The public is told to put little confidence in newspaper reports even if accurate. Each issue urges intelligent efforts to retain the United States market."

Restraining Dams Giving Way.

SACRAMENTO, November 16.—The executive committee of the State Anti-Dam Association held its regular monthly meeting today at the rooms of the board of supervisors. It was reported that the injunctions were being enforced and obeyed in the suits brought by the association, to prevent illicit hydraulic mining. It appeared from the reports of the watchmen that some of the dams that have been erected for the purpose of restraining mining debris are imperiling uncontracted, and in instances they are in process of decay.

Highbinders Suspected.

PACIFIC GROVE, November 16.—Two fishermen in search of halibut this evening came across the body of a Chinaman under water near Chinatown. They had great difficulty in extricating the body, it being apparently anchored. A long rope was tied around the waist and it is believed to be a case of murder. The case is being investigated.

Russian Aid to Crete.

VIENNA, November 17.—The Greek bishop of Cana, island of Crete, has been notified by the Russian consul that the czar proposes to rebuild, at his own cost, the burned Christian quarter of Cana and to enlarge the orthodox Greek church. The bishop has also granted a large sum of money for the relief of the poor at Cana.

Killed by a Falling Log.

SANTA CRUZ, November 16.—K. Hesse was killed today on L. K. Baldwin's ranch by a log falling on him. He was a native of Germany, aged 51 years.

FRUIT GROWERS
IN CONVENTIONDiscussing Methods
of Distribution.Notes of Yesterday's Ses-
sion at Sacramento.Three Fresno Growers Appointed
on Important Committees.
Auction Rooms.

SACRAMENTO, November 16.—The afternoon session of the Fruit Growers' convention was opened with the reading of a report of the year's work of the California Fruit Growers and Shippers' Association by its president, H. Wein- stock. The report was largely statistical, dealing with the shipments of fruit during 1897 as compared with 1896.

In 1896, 4071 cars were sent east; in 1897, 5268 cars were sent up to November 12, to which some 200 or 300 cars would have to be added to get the total shipment to the end of the season.

The California Fruit Growers and Shippers' Association had, the speaker said, been operating for the purpose of gathering information regarding fruit distribution; to establish consolidated auction sales rooms in the larger eastern cities, and to keep such sales rooms free and open to all.

The auction sales rooms had been established, the speaker said, and had been operating apparently to the satisfaction of all concerned.

During the past year abnormal conditions had prevailed in the East, chief of which was the enormous crop of strawberries, and an excessive crop of eastern peaches and grapes and large shipments of hardy fruits from Oregon.

When the report had been received President Connor announced the following committees:

Marketing and transportation—R. D. Stephens of Sacramento, B. F. Walton of Yuba City, E. M. Righter of Campbell, A. Block of Santa Clara and Dr. L. S. Eshleman of Fresno.

Legislation—Professor G. W. Childs of San Jose, Robert T. Curtis of San Bernardino, B. E. Hutchinson of Fresno, A. P. Hall of Penryn and R. F. Stabler of Yuba City.

Resolutions—William Johnston of Courtland, John B. Dore of Fresno, E. H. Best of Los Angeles, J. A. Flicher of San Francisco and J. T. Bouge of Yuba City.

Durrant's Latest Dodge.

SAN FRANCISCO, November 16.—The attorneys for Theodore Durrant made a new move today. The condemned man now stands convicted of the murder of Blanche Lamont. No disposition has been made of the additional murder charge based on the death of Minnie Williams. A document filed with the district attorney today gives notice that on Friday next the attorneys for the accused will appear before Judge Babbitt and demand that a date be set for the trial of the Williams case in the same manner as though there had been no trial and conviction for the murder of Blanche Lamont. District Attorney Barnes takes the position that the Williams case cannot be forced to trial.

Wanted to Kill Judge Torrance.

SAN DIEGO, November 16.—R. A. Jones, the real estate dealer, who was arrested a few days ago on a charge of perjury, alleged to have been committed while testifying as a witness in Judge Torrance's department of the superior court, was today in custody. This time the charge is threats to kill. The complaint was based on affidavits made by Judge Torrance and L. A. Wright. The latter in his deposition says that Jones declared to him his purpose to kill somebody. Wright asked him that person was, to which Jones replied: "I was a friend of Torrance. He has gone back on me and I intend to kill him."

Threatened Him by Telephone.

SAN FRANCISCO, November 16.—Harry Masters, grocer, was arrested this afternoon for making a threat to kill Dave Winders, a collector. Masters called him up by telephone and said he would beat him to death for attacking his store. Masters was sent to jail in default of furnishing \$5000 bail. About two years ago he shot a little boy and was fined \$1000. The attachment this morning was levied for attorney's fees for defending him on that charge.

St. Petersburg Flooded.

ST. PETERSBURG, November 16.—All day long a fierce wind from the sea has driven the waters of the Neva up the stream and flooded the canals, the suburban islands and outlying portions of the city. Several bridges have been swept away and the flood continues to rise, threatening to assume grave proportions. At frequent intervals cannon are fired at the fortresses to keep the inhabitants alert.

Meets With Approval.

CARSON, Nev., November 16.—The action of the grand jury in exonerating young Guinness, the slayer of Attorney Jones, meets with the approval of the people and expressions of satisfaction are heard on every side. Young Guinness will re-enter school on Monday next.

A Methodist Minister Insane.

SAN JOSE, November 16.—Nicholas G. Lake, who ten years ago was a prominent minister of the Methodist Episcopal church, was adjudged insane today and committed to the state hospital at Agnew. His affliction is due to old age and failing health.

SEALING CONFERENCE CLOSED

An Understanding Reached by the
U. S. and Dominion Governments.

WASHINGTON, November 16.—The Bering sea meeting, in which representatives of Great Britain, Canada and the United States have participated, came to a close tonight, the seal experts making a unanimous report concerning the condition of the seal herds and the diplomatic representatives of the respective governments reaching an understanding by which they hope at a later day to effect a final adjustment not only of the Bering sea question but of other pending border controversies. For the present, however, no final action was taken as to the suspension of pelagic sealing.

The Canadians urged that other questions be embraced in any plan of settlement and suggested an international commission to accomplish this end. This proposition was fully discussed, and an agreement reached that the Canadian officials would put their views in writing after returning to Ottawa and submit them to the authorities here. All parties concerned say that the outlook is favorable to a satisfactory adjustment.

A SENSATION SPOILED.

Merely the Artful Dodge of a Beg-
ging Letter Writer.

LONDON, November 16.—The officials of the United States embassy say that the story of the alleged kidnapping of Henry B. Clay of Boston, Mass., by a prominent physician, who is an ardent vivisectionist, is a pure invention. "Clay is pronounced to be a mythical personage, and the letter received at the United States embassy telling of the kidnapping is said to have been merely the device of a begging letter writer who himself delivered the letter alleged to have been found on the sidewalk in Harley street, which is usually occupied by leading physicians," in order to obtain half a crown for his trouble.

The Valley Road Sued.

STOCKTON, November 16.—The damage suit of Margaret Fox against the Valley road was commenced this morning in the superior court. The suit is for damages to three lots at the corner of Center and Taylor streets, in front of which the railroad grade is built up. After the road was completed the attorney for the road made a tender of \$1000, but it was refused. Most of the testimony has been that of real estate dealers who were called upon to give their ideas as to the value of and the damage to the lots. The case will go to the jury tomorrow.

Four New Nebulae Discovered.

PASADENA, November 16.—Dr. Lewis Swift discovered four new nebulae last night, three in one field. Swift will remain here, declining North Carolina offers.

NOBLE RED MEN

Natives of the Island of
Tiburon.They Possess the Highest Physi-
cal Characteristics of the
Human Race.

WASHINGTON, November 16.—United States Consul Hugh Long at Nogales, Mexico, has furnished the state department particulars of the supposed murder of a party of Americans headed by Captain Porter, by the Seris Indians, on Tiburon island, in the Gulf of California.

The consul says the island of Tiburon is one of the largest and most picturesque in the Gulf of California, and is peopled by a most remarkable tribe of Indians, who are noted for their large size and extraordinary athletic on land and water.

Those who have witnessed their aquatic sports at a respectful distance declare that many of them can actually walk or rather run upon the water with no other assistance than broad wide shoes. They are expert fishermen and hunters, having rigid ideas as to the maintenance of game preserves on the island and limiting the killing of game under severe penalties. They destroy all children in infancy that are malformed or appear to be lacking in intelligence. In this way the standard of physical and mental conditions in both sexes is kept very high.

It is currently believed that at one time the native women were exterminated to make room for a whiter and superior race of women. The nucleus of this race of higher women was formed from captives made at various times, extending over a series of years on land and water.

They have no schools, but each home has a system of physical training. The natives guard their shores day and night and no man is allowed to penetrate the island, even if he should make a landing. It is said that no epidemic has ever prevailed on the island and disease is scarcely known among this extraordinary tribe, so magnificent in their physical endowment. No man or woman is allowed to live beyond the age of 70 years, no matter how well preserved in body and mind. By careful selection a large percentage of the women have the transparent, peachy complexion and deep auburn hair.

The Vaga and the Rockpile.

From the Fresno Watchman.

The supervisors ordered work on the rock pile by prisoners stopped the other day. Up to that time vigorous search of "hand out" were made. In fact there had not been any around for weeks. Within two days after the order was made by the supervisors the gentlemen of the road began to appear at the back doors of residences in search of grub—and if the rock pile were kept in readiness for two weeks the hole element would be at hand as ever. The rock pile has great terror to the wench inmates in search of work. That sort of exercise is too much of a good thing for them. They do not object to lying in jail and eating regularly, but breaking rock and repairing roads is rather beneath their dignity.

GOV. BUDD IS
APOLOGETICNot Responsible for
Appointees' Acts.Grieved at the Ione School
Scandal.And Expresses a Hope That the
Management Will Turn Over
a New Leaf.

SACRAMENTO, November 16.—Governor Budd called the board of trustees of the Ione school together this afternoon at 2 o'clock for the purpose of inquiring into the charges that Superintendent O'Brien had treated the inmates in a cruel and inhuman manner, and that the superintendent was incompetent. There were present Trustees Preston, Tyrell and Maddux, Superintendent O'Brien and Secretary Burnard.

Governor Budd read an extended paper, in which he said that the entire responsibility for the conduct of the school rested with the trustees. He was only responsible for their appointment. The board had absolute power. If there were any abuses which they could not regulate he would lay the matter before the next legislature.

The governor read a letter from Secretary Burnard, in which the latter asked to be permitted to appear before the meeting today and make defense in his own behalf of the charges which Superintendent O'Brien had made to the effect that Burnard was incompetent.

Trustee Maddux made the remark that he had nothing to do whatever about the matter of investigating any charges against either the superintendent or the secretary.

The governor said he could require a report from the trustees as to their acts. "Is there anything else, Dr. Tyrell?" asked the governor of the trustee from Sacramento.

Dr. Tyrell said he had learned that the trustees had the power to act. "I am glad to hear that you have found that out," observed the governor. Trustee Maddux and Preston promised to submit a written report of affairs at the Ione school.

Governor Budd remarked that he understood that when Dr. O'Brien went into the school nineteen of the officers resigned and a number of boys were allowed to escape. Continuing, the governor said if there were any abuses at the school he hoped they would be stopped.

The understanding then came on and with the understanding that the matter would be discussed by the trustees at a meeting to be held at the school in the early part of next month.

John Marley, secretary of the State Board of Examiners and L. E. Brown, secretary of state, recently paid a visit to the Ione school and have submitted a formal report of their investigations to the board of examiners.

They say that they found 185 inmates, ranging in age from 9 to 21 years.

No Gold on Copper River.

SAN FRANCISCO, November 16.—Frank S. Marine, who for three months has been in Alaska and has made copper locations for eastern people, arrived here today. He protests against the statements of gold discoverers in the Copper river region. He says there are no great gold deposits there and declares that the country has been thoroughly prospected.

His Wounds Not Serious.

The Japanese that was stabbed in four places and taken to the county hospital Monday night is not dangerously wounded. Yesterday it was learned that the Jap was injured while in a drunken fight with a fellow countryman. The Japanese did not desert the guilty man arrested and kept the matter quiet Monday night.

First News for the Valley.

From the Santa Enterprise.

The Republican has enlarged and is now an eight-page seven column daily. We note with pleasure this evidence of public appreciation. The REPUBLICAN gives a satisfactory news service in the valley in advance of any other medium, and its editorial and local columns are always filled with pertinent and interesting matter.

100 HEAD OF HORSES.

Consisting of trotters, roadsters and runners, the best lot ever offered in the state, together with well-known stallions and brood mares, containing the blood of Dexter Prince, Sidney, Electioneer, Whips, Sultan, Director and all the most fashionable blood lines in the state, catalogues of which will be furnished at once. KUTNER-GOLDSTEIN COMPANY.

The Pith and Point

Of this business is to sell goods, but the selling must be right. Every article shown you must bear the stamp of honest value. Every dollar that you spend in this store must be given its full purchasing power; else we are false to our trust. We are keenly alive to all of this, and the confidence which you have shown and are showing in our progressive business methods will never be abused with our sanction. If it is at any time so abused, we want to know it.

NOW FOR THE NEW MERCHANDISE.

We've Made

A Silk Purchase.

Waist silks mostly. Just the things you're looking for. The new styles at low prices—a strong combination. Rustling Tulle silks in rich iridescent effects. Here are the lots; what do you think of them?

All Silk Changeable Tulle, beautiful new colorings. Price, 65c per yard.

Extra heavy quality Plain Colored Tulle Silks, all shades. Price, 75c per yard.

Beautiful New Tulle Plaid Silks, new combination of color. Price, \$1 per yard.

Roman Striped Tulle Silks, 24 inches wide. Price, \$1 per yard.

The New Fall Suit

Should be selected now, while the stock is at its best. Shelves and counters literally laden with wintery wear. Set to in your mind the price you intend to pay, and then see how perfectly the merchandise fits the figures.

New Novelty Overcoat Dress Goods, 36 inches wide. Price 25c per yard.

New Weather Suitings, very stylish effects, endless combinations of colors, 35 inches wide. Price 35c per yard.

Fancy Flannel Dress Goods, rough wadded effects, one of the best selling styles this season, width 40 inches. Price 50c per yard.

Camel's Hair Suitings, 40 inches wide, all fall shades, very durable. Price 50c per yard.

Strong Black

Goods Argument.

We know of stores in cities of twice this size that cannot boast of anything like the Black Goods equipment that you will find here in your own home store. Going to do some selling in this section during the next few days that will cause favorable comment.

New Wool Novelty black goods, choice and pretty designs, 40 inches wide. Price, 35c per yard.

All-Wool Black Figured Dress Goods, now fall effects, 40 inches wide. Price, 50c per yard.

Our Celebrated Gold Medal Figured All-Wool Black Dress Goods, 44 inches wide, exquisite designs. Price, 75c per yard.

Elegant novelties in Figured Black Dress Goods, 46 inches wide, satin effects. Price, \$1 per yard.

They say that they found 185 inmates, ranging in age from 9 to 21 years.</

RUSSIAN GRAIN.

The Crops Show a Serious Deficit.

Reports From Europe Give a General Shortage—Argentina Makes a Better Showing.

WASHINGTON, November 10.—The agricultural department has issued its monthly review of the foreign crop situation. Much attention is devoted to the grain crop of Russia, especially wheat, on account of its magnitude as a factor in the European supply.

The review says that all accounts agree in representing the wheat crop as deficient, but as to the extent of the deficiency, much difference of opinion exists. After quoting many dispatches painting the crop situation in various provinces in very black colors and the statements of our consul at Odessa that this year's crop has proved a failure, the review calls attention to the fact that since harvest Russia has exported grain very freely.

The exports of wheat from August 1st to October 23d, says the review, amounted to 1,453,340 quarters, against 1,855,049 quarters and 3,383,780 quarters during the corresponding period in 1896 and 1895 respectively.

The large exports have led commercial papers to withhold their credence from the more pessimistic of the reports which have been published. That the crop was deficient was admitted, but that the failure was so serious as such reports implied few of the grain dealers of western Europe believe. Recently, however, some change of attitude is becoming apparent. In the manner of the crop for this time of year and the opinion is freely expressed that after this month Russia can be relied on for only very moderate shipments.

"It is generally understood that Russia had large stocks of wheat left over from the crops of the preceding year, and this fact, coupled with the good prices which have prevailed, may account for the large exports which have taken place. The crop failure in large parts of Russia has been extremely serious."

The review says the estimates of the Russian crop are so uncertain that their location would be of doubtful utility. The preliminary of the figures for France show a reduction of 26 per cent below 1896 and 17 per cent below the average for ten years. As for five years France and Russia produced 26 per cent of the world's crop, the review says, however, be evident in itself to produce a very sensible effect on the world's supply, independent of the short crops in Austria-Hungary, the Danubian and Balkan countries and elsewhere, and the shortness of the last crop in Australia and Argentina.

In Germany, rye, which is the principal bread grain in that country, has been officially estimated at 4 per cent less than last year's crop. The various estimates for Austria-Hungary are more or less conflicting but there is no doubt as to there being a heavy deficit in the wheat crop.

The wheat crop of the United Kingdom is estimated at fifty and two-thirds millions bushels.

The preliminary estimate of the Italian wheat crop makes it 85,131,000 bushels against 144,722,700 bushels last year.

The Roumanian wheat crop is estimated at 37,124,720 bushels.

The Bulgarian wheat crop is estimated at 40 per cent; rye at 35 to 40 per cent and barley at 25 per cent less than last year.

The wheat crop of Turkey has been estimated at 50,800,000 imperial bushels.

As regards crops now growing in the southern hemisphere, the news continues to be favorable on the whole. In Argentina drought, which for a time in some provinces threatened serious injury, seems to have been generally broken and danger of any serious loss from such a source seems now, in the advanced stage of the crop, to have passed.

The Indian wheat crop has been sown under favorable conditions, and the same is in general true of the winter grain crops of Europe, and both in India and in Europe the weather seems in the main to have been very favorable to the growth of the seed.

The A. R. U. in Politics.

SPRINGFIELD, Ill., November 10.—An important special meeting of the American Railway Union will be held in Chicago on November 22 to elect men to attend the legislatures of the various states for the purpose of looking after the interest of the union in the order. It is expected that 100 delegates will be present. The headquarters of the order will be moved from Columbus to Chicago.

Fruit and Grain Markets.

SAN FRANCISCO, November 10.—The following are prices furnished by the San Francisco Fruit Exchange, Jobbing:

DRIED FRUIT.

New crop—Apples, California, 5c @ 6c; for Royal, 7c @ 8c; for Moorpark, 8c @ 9c; for Golden Wonder, 9c @ 10c; for Red Bluff, 10c @ 11c; for Jubilee, 11c @ 12c; for 2-crown, 12c @ 13c; for 3-crown, 13c @ 14c; for 4-crown, 14c @ 15c; for 5-crown, 15c @ 16c; for 6-crown, 16c @ 17c; for 7-crown, 17c @ 18c; for 8-crown, 18c @ 19c; for 9-crown, 19c @ 20c; for 10-crown, 20c @ 21c; for 11-crown, 21c @ 22c; for 12-crown, 22c @ 23c; The municipal license on slot machines and pool rooms is too low. It ought to be doubled at least.

The Grace Valley Union has been enlarged to a six-column, eight-page paper. The Union is a good paper and we are glad to observe this evidence of prosperity.

Irish Francis M. Scott \$9000 to obtain the Taunman nomination for supreme court justice, according to the New York Post. If this is true, it is safe to predict that Mr. Scott's election will cost the people of New York many times the amount it cost him.

An honest female purveyor at Merced hangs out this sign: "Wanted—jack-rabbits for chicken tamales." Merced, you know, is the place where the San Francisco sports congregated to chase the festive jack, and the ingenuous animal is in high favor there. The hands and the horses and the glamor of the chase give the rabbit an aristocratic flavor that is not noted elsewhere.

The deciduous fruit growers of Southern California propose to profit by the experience of the orange growers and will organize for the regulation of prices and the systematizing of marketing. All kinds of fruit growers are able to make a success of organization with the exception of the raisin and prune growers, and in the Santa Clara valley the latter have accomplished considerable for the benefit of their industry. Raisin growers differ from other producers, that they cannot unite in securing what may be obtained through organization?

A CORRESPONDENT of the Merced Sun speaks disparagingly of a Fresno constable who arrested a couple of boys at Stockton who were charged with thievery, and failing in his attempt to secure them with handcuffs, tied them together with heavy twine. This does seem rather hard on the boys, but there is another side to the case. If the constable had not taken this precaution, and one or both of the boys had escaped from his custody, he would have been still more severely criticized. The task of dealing with young criminals is not a pleasant one.

THE IMMIGRATION QUESTION

The demand of the Knights of Labor that steps be taken by congress to restrict immigration should be pressed with vigor. All the other labor organizations in the country should make common cause with the Knights in this matter. Hardly a session of congress has gone by of late years without a bill having for its object the restriction of immigration being introduced, but the measure invariably failed to become a law. During the final session of the Fifty-fourth congress a good restriction bill passed both houses, but it was vetoed by Cleveland, an act that added one more to the many mistakes of his administration. Immigration to this country has fallen off somewhat the past few years owing to the hard times, but now that another era of prosperity has begun we may expect the number of immigrants to increase until the figures of a few years ago are equaled, if not surpassed.

The heaviest influx of foreigners occurred between the years 1880 and 1894. During that period there was one year when the number of immigrants exceeded 700,000, three years when the number exceeded 600,000, and four years in which the 500,000 mark was passed. In 1893 the number of immigrants was 502,917, but in 1894 the number fell to 314,407. In 1895 there was a further decline to 279,948, but in 1896 the number rose to 348,267. The statistics for the fiscal year 1897 will probably show an increase over 1896.

Of course most of the immigrants are unskilled laborers. Take the year 1896 for an illustration. Of the 348,267 immigrants that landed on these shores in that year only 46,807 were skilled laborers; miscellaneous, 170,940; of no occupation (including women and children), 123,028, etc. There must therefore have been at least 250,000 unskilled laborers among the number who came to the United States last year. It is not necessary to state the influence of such an enormous influx upon the labor market; the figures speak for themselves. In our opinion an immigration law, most restrictive in character, should be passed at the coming session of congress and be allowed to remain in force for the next five years at least. Both educational and property qualifications should be required, and the law should be strictly enforced. If the various powerful labor organizations in the United States take up this matter in earnest, it will not be a very difficult matter for them to attain their object. The welfare of our workingmen demands that they be protected from competition with cheap and debased European labor, and the general welfare of the country is practically identical with that of its toiling millions.

Among the beautiful flowers which attain perfection in Fresno the gorgeous and popular chrysanthemum stands in the front rank. George Rooding, Mrs. Othout, L. L. Cory and Rev. William Lucas have produced the flowers in variety and richness that would attract attention anywhere in the world, and there are many others who have been well rewarded by the time devoted to their cultivation. The chrysanthemum lacks the delicacy and sweetness of the rose and some other favorites of the Fresno garden, but it makes up for these deficiencies in the variety and richness of coloring and diversity of form, and has the further attraction of furnishing abundance of bloom and brightness when other varieties no longer supply the abundance of bloom of springtime and summer. The chrysanthemum is an unqualified success in Fresno.

THE FRESNO REPUBLICAN says S. C. Smith, editor of the Bakersfield Echo and a state senator, is talked of as a Republican nominee for congress in this district. Mr. Smith is an able man, a hard worker and would give an account of himself as a member of congress. However, the Democracy will see that a free silver man is sent to congress from this district next year, and allow the Republican candidate to browbeat around among his gold standard friends.—*Sanford Democrat.*

As between a free coinage advocate and a free trader, and a protectionist who is not in favor of free coinage, the Republicans confidently believe, other things being equal, that the voters of this congressional district will decide in favor of the latter. The people of California desire to retain the protection to their products granted them by the Dingley tariff, and it is highly improbable that they are going to send enemies of protection to congress.

The rockpile is not a paying investment. Abolish it.—*The Examiner.*
In view of the fact that the supervisors have taken formal action in ordering the rockpile discontinued this advice seems to be superfluous. A matter of real importance is the devising of a more satisfactory method of employing the vagrants confined in the county jail. That some means should at once be adopted to keep them employed in a useful manner cannot be seriously questioned. Otherwise the word will soon go out from Siskiyou to San Diego that Fresno county provides board and lodging for the Sons of Rest without the penalty of work, and the hegets to this haven of rest will begin in earnest. Work of some sort for the vagrants is an absolute necessity.

RANDOM REMARKS.

It does seem rather cruel for Joe Spinnery to denounce the chemical analysis bureau as bulky merely because it doesn't respect him or won't do the driver appointed by him wants it to do.

"Fresno needs a brewery," says the *Expositor*. Let's amend this by saying that Fresno needs a man who will build a brewery. Perhaps this way of expressing our necessity will have a better result.

In view of the decision of Judge Riley in the case of Eli Vandenberg, who sued for a license to marry Mrs. Mary Morgan, it is safe to say that Eli won't get there—at least not at present nor in this state.

A contemporary, having in mind Cleveland's defiance of the Prohibition syndicate in the matter of signing a petition for a liquor license, says: "Grover won't down." No, he won't. Even that whale that swallowed Jonah couldn't "down" him.

"Is our government doomed?" asks a Populist exchange. There must be something at work in the Populist mind when it puts forth such a query as this. Hitherto the order of the words in the sentence quoted has been as follows: "Our government is doomed."

It is stated that L. O. Stephens has just completed a map of the Fresno cemetery. It is reported to be an elaborate piece of work, and the only correct map of the cemetery in existence. Wouldn't it be a good idea to have made several copies of the map and present them to the few mortuaries around here?

Child—Who is that, papa, to whom the people are bowing so respectfully?
Papa—He is a professional man, son, and almost deserves to be classed as a genius.
Child—What does he do?
Papa—He puts up clothes for people, and does it, too, without taking the name of our Lord in vain.

The season for deer in Michigan opened a week ago and since that time five men have been mistaken for deer by hunters and killed. It would really seem advisable for the nimble in that state to hunt for men, in which case they might bring down a deer occasionally. The only other way to protect the deer is to come within range of the Michigan hunter is for the authorities to abruptly declare the season closed.

planet to planet, until you stand at the uttermost verge of the solar system, and then, with one bold leap of your fancy, to the stars, so far away that their light has been thousands of years traveling to the earth; standing thus at the center of this vast cosmos and reading the secrets of the universe, with a geologist you may travel back and down and see how the earth has grown. This grandest company you can keep, if you will, in books. And remember that these mental associations make you quite as much as the man and woman you associate with—perhaps a more. There are characters in Dickens, there are characters in the great novelists and dramatists of the world that are more vital than their power and influence over you than the man you shake hands with on the street. For you do not simply see their outside, you are let into the secrets of heart and brain, reading the motives that have made them what they are.

Boxing, though better appreciated now, was not so popular in the north of England and Scotland as in the south, not necessarily because the people were either better mannered or less aggressive, but probably because the science was less understood. Sir Walter Scott's touching story of the "Two Drovers" is a good illustration of this difference of feeling on the subject, and as long ago as 1790 a book was written by a Highland officer with the following curious title: "Antiquilism, or the science of defense exemplified in short and easy lessons, for the practice of the broadsword and single stick, whereby gentlemen may become proficient in the use of the weapons, without the help of a master, and be enabled to chastise the insolence and temerity so frequently met with from those fashionable gentlemen, the Johnsonians, Sir Bennians and Mendacians of the present day, a work perhaps better calculated to extirpate this reigning and brutal folly than a whole volume of sermons."

It was precisely this feeling which poor Robin Clig, Sir Walter's hero, expressed when his friend Harry Wakefield, with whom some words had passed, suggested that they should have a round or two and be friends. "To be penten like a dog," said Robin—"there any reason in that? But if I am to fight I've no skill to fight like a jack-nape, with hands and nails."

"How would you fight, then?" said his antagonist. "Though I'm thinking it would be hard to bring you to the scratch anyhow."

"I would fight with broadswords and sink point on the first blood drawn, like a gentleman."—*National Review.*

An Old Wind.
As they entered the horse car both men put their hands into their pockets in search of the fare.

"That's all right, old man," said the one as he fished out a dollar bill.
"Go on!" replied the other, showing the hand with the bill aside. "I've the change right here."

"But it's my treat," returned his friend. "Besides, I need the change anyhow."

"Don't take that bill, conductor," said the man with the dime in his hand. "I'm paying for this."

"Not much, you ain't," insisted the other, holding his friend's hand and trying to push the dollar bill within reach of the conductor.

"Stop that now," cried the man with the dime. "If you won't listen to reason, let's match to see who'll pay."

"I'll go on," replied the other. The man spun the dime in the air. "Heads!" cried his friend.

Whether it was heads or tails will never be known, for just then the car gave a lurch and the coin dropped between the slats and rolled out of sight.

"I said you wouldn't pay this anyhow," laughed the other as he handed the conductor the dollar bill and put the change in his pocket.

When the men left the car, the conductor came along and fished out the dime with a jackknife. As he wheeled it up with the driver he said, with a wink, "It's a good thing for us, Bill, that all the fools ain't dead yet."—*New York World.*

Very Dangerous.
A man pointed an unloaded gun at a friend and pulled the trigger.

"See," he said, "I have exploded a supposition. There is no danger in an unloaded gun."

And straightway the friend struck him on the head with all his might.

"It seems to be a dangerous weapon for a fool to play with after all," was the consolation he offered, as the man bound up his wound.—*Chicago Record.*

Her Chance.
"I hear that Miss Moody is incurable over the loss of poor Little Fida."

"Yes, poor thing. Every time it rains out and dogs she rushes to the window to see if he is among them."—*Pick Me Up.*

THE LEADING DRY GOODS HOUSE OF FRESNO.
W. McCallum & Co.,
THE LARGEST AND BEST LIGHTED DRY GOODS HOUSE IN CENTRAL CALIFORNIA.

Order to Show Cause Why Remi Estate Should Not Be Liquidated.
In the Superior Court of the County of Fresno, State of California.
In the matter of the estate of Remi G. Wood, deceased.
UPON READING AND FILING THE PETITION of L. H. Church, administrator of the estate of Remi G. Wood, deceased, praying that the said administrator of said estate be authorized, empowered and directed to liquidate said estate, and to distribute the same, to the said administrator, which is described as follows, to-wit:
Fractional portion of lots six (6) and seven (7) of the South Vile, tract according to the map thereof on file and of record in the office of the county recorder, of the county of Fresno, state of California.
It is ordered that all persons interested in said estate appear before the above entitled court on Monday, the 20th day of November, 1897, at the hour of two o'clock, p. m., at the court, to show cause if any they can, why the said real estate should not be liquidated and the proceeds thereof be distributed to the said administrator, and that a copy of this order be published for two weeks in the Fresno Morning Republican, a newspaper printed in said county.
Dated November 10th, 1897.
L. W. RINEY,
Judge of the Superior Court.
Evelyn A. Ewing, attorney.

SHOT AT HIS CHILDREN

A Rancher Terrorizes His Family.

George Kirkham Crazed by Whisky.

Chased His Wife and Children
From Home With a Shotgun.

George Kirkham, a wealthy Englishman living on a ranch near Selma, created a lively disturbance at his home last Monday. He had been drinking and during the day became quarrelsome. He abused his wife and children in a brutal manner and soon worked himself into a condition of insane fury. He was evidently bent on putting his whole family out of the way, for when his rage had reached its climax he secured a shotgun, and as his wife and children ran from the house, fired the gun at them.

Fortunately the wife and children were some distance away before Kirkham became murderously inclined. The shots caused the woman and children to accelerate their pace, but did no harm as they flew wide of their mark. The terror of the little ones at the unnatural screaming drove them to run screaming down the street. The mother went to a neighbor's house and sought protection from the murderous husband.

The neighbor drove into town and secured a warrant for Kirkham's arrest. Kirkham was taken into custody by Constable R. P. Zimarr and conveyed to Selma where he was kept in the calaboose all night. Yesterday he was admitted to bail in the sum of \$150, and his examination on the charge of exhibiting a deadly weapon in a threatening manner will take place in the justice's court at Selma on next Saturday.

Kirkham fired the shotgun and drove his family from the place and chopped a fine organ to pieces. He was placed in the county jail for this offense.

Kirkham, it is said, raises a disturbance about once a month and maltreats his wife and children in a brutal manner. The children are very much worked up over his outrageous treatment of his family and it would not be surprising if, some fine day, they made it very unpleasant for him.

While Kirkham was a prisoner at the county jail his wife brought him food and dainty bits of food nearly every day, so secure in his thoroughly devoted to her husband notwithstanding his brutality.

Kirkham is about 50 years old and a man of fine education. He has a daughter 15 years of age. He has lived in the Selma neighborhood for a number of years.

KINGSBURG NEWS.

The Schools Full to Overflowing—
An Oyster Supper.
F. D. Rosendahl left Friday night for San Francisco on a business trip, and he intends before returning to visit his two daughters in San Jose.

Mrs. E. W. Pinkley went to Fresno Friday night and returned Saturday evening. She was one of the committee on the course of study appointed at the Teachers' Institute, and she met the other members Saturday.

The cottage belonging to the lumber company has been purchased by Nele Hansen and removed to his farm near town. The moving was done by the Unger of Selma, and was performed in a satisfactory manner.

The members of the M. E. Church South will give an oyster supper at the parlance on Friday evening next.

The Kingsburg schools are full to overflowing, and the attendance is all that could be asked. The interest in the school work is very marked.

On Saturday evening last a masquerade ball was given in the Kingsburg hotel and the crowd in attendance was one of the largest seen here at a dance for a long time. Music was furnished by the local brass band, and dancing was continued until a late hour. There were many handsome and becoming costumes, and a grand time was had by all.

Thomas and William Allison, prominent grain raisers of this vicinity, have sold all their belongings, leases, etc., to W. W. Ward and intend leaving for Missouri, where they will spend the winter.

Friday the funeral of the infant child of Mr. and Mrs. O. A. Allison took place. The child lived but a few hours after birth and its death was a severe blow to the parents.

Mr. Baker has moved here from near Selma and is living in the residence recently occupied by A. G. Bryan. Mr. Baker has charge of a peach farm owned by W. W. Ward, and intend remaining permanently.

Mrs. Lotta Staller, who had been visiting friends in Los Angeles for several weeks, returned from there last Sunday evening.

Kingsburg, November 15, 1897.

A Warning to Girls.
From the Selma Herald.
There is at date of writing a beautiful young girl languishing behind prison bars at Fresno on the shocking charge of adultery. There is no need to mention names, for everybody knows to whom reference is made. The Fresno harbor who deserted his wife for her cannot furnish the \$500 bonds required, and no one in Selma cares to undertake the responsibility for the young woman, who formerly resided here. The matter is only alluded to as a terrible warning to young girls to exercise the prudence in their daily lives which should be their natural instinct. Only this week Prosecuting Attorney Jones of Nevada, a married man, was shot down by the young brother of a girl to whom, in defiance of all decency, he was paying attention. And the girl? Why, with equal disregard of everything but her infatuation for her lover, she threw herself on his body and clung to him. The girl confined in the Fresno jail has brought shame on her aged mother and incalculable ruin on herself. A warning from a newspaper may have some more effect than a scolding from a mother, and it is in this spirit only that the subject is referred to at all.

THE EASTERN STAR.

Officers Installed at Masonic Hall
Last Night.

The following officers of Raisina Chapter, Order of the Eastern Star, were installed at Masonic hall last night: Worthy Matron, Miss Margaret Eames; worthy patron, George Congrave; associate matron, Miss Sadie Clark; conductress, Miss Ruth Eames; associate conductress, Miss Minnie Burns; secretary, Mrs. E. F. Grimes; treasurer, Mrs. Mark Webster; Ada, Mrs. W. S. Badger; Ruth, Mrs. Mack; Esther, Miss Emma Cameron; Martha, Miss Maud Upton; Electa, Mrs. Mattie Williams; chaplain, W. H. Martin; marshal, Mrs. Mamie Bedford; warden, Mrs. Theresa Tuller; sentinel, Charles W. Walden.

During the evening L. O. Stephens, who was honored at the recent session of the grand lodge in San Francisco with the office of associate grand patron, was presented with a loving cup of silver by the chapter. George Congrave making the presentation speech. It was a very pretty testimonial.

Mrs. L. R. Williams, the retiring matron, was presented with a handsome vest matron's jewel by the chapter. Mr. Stephens tendering it to her with appropriate remarks.

A supper in the banquet room followed, and a very enjoyable hour was spent in sociability.

Mr. Schmidt Not Insane.
A Von Schmidt was examined yesterday or a charge of insanity. The examining physicians declared Von Schmidt to be sane. He is perfectly rational while in conversation on general subjects and there does not appear to be sufficient grounds for calling him insane. In fact Von Schmidt's violent temper when interfered with seems to be the only ground on which the charge of insanity is based. The rancher was highly pleased to be released from the insane ward, as he was placed there for two or three hours after his arrest, which occurred in the morning.

David H. Toles.
Mrs. Conradson, who knew you five years ago, wishes to see you. Please address Mrs. Conradson, Stockton, Cal.

A FRESNO GIRL

Miss Tupper's Success as
an Actress.

She is Now Playing With the
Alcazar Company in San
Francisco.

Miss Polly Tupper of Fresno is now a member of the company playing at the Alcazar theater in San Francisco. She began her engagement on November 8th, and although she is playing in minor roles she has already received favorable notice from critics, who say that her work promises well for her future. Indeed, authorities on the theater art have privately expressed very flattering opinions of the young lady.

Miss Tupper is the daughter of Mr. and Mrs. W. D. Tupper of this city and was reared in Fresno. She has many friends here who will be glad to hear of her success. Fresno still be proud to claim her as the "graffy Fresno girl," as the bay city papers speak of her.

Miss Tupper is 19 years of age and a very attractive young lady. The San Francisco press has given her favorable mention, and the Call last Sunday printed a portrait of her, together with those of the leading actors and actresses in the city. It is a strong indication that the critics think highly of her work that she has received so much attention in the brief time she has been on the stage.

The young lady has entered upon her work as an actress with the determination to succeed. She possesses good judgment, and has sensibly contented herself with beginning in less important parts, wishing to work her way up from the bottom of the ladder.

Good Blood
In essential to health. Every nook and corner of the system is reached by the blood, and its quality conditions of every organ depends. Good blood means strong nerves, good digestion, robust health. Impure blood means scrofula, dyspepsia, rheumatism, catarrh or other diseases. The surest way to have good blood is to take Hood's Sarsaparilla. This medicine purifies, vitalizes, and enriches the blood, and sends the elements of health and strength to every nerve, organ and tissue. It creates a good appetite, gives refreshing sleep and cures that tired feeling. Remember,

Hood's Sarsaparilla
Is the best—in fact the One True Blood Purifier.

Hood's Pills cure Liver Ills; easy to take, easy to operate.

FANCY ROCKERS
Quite a number, beautiful in design, substantial in make, LOW IN PRICE, finished in Mahogany, Oak, blood, Mahogany, Oak and Purple.
